POLICE COMMISSIONER

FOR THE

CITY OF BOSTON

FOR THE

YEAR ENDING DECEMBER 31, 1963

FRONT COVER

U.S.S. "Constitution"

The United States frigate U. S. S. "Constitution," more familiarly known as "Old Ironsides," launched in 1707, presently berthed at the First Naval District facility in Boston, shown being turned around, an annual event made necessary to preserve her masts and spars from the warping effect of the wind and weather. Tradition has it that during a victorious engagement with the British frigate "Guerriere" the American sailors on seeing British shot failing to penetrate the staunch oak sides of their ship dubbed her "Old Ironsides." Public sentiment for her preservation was aroused by the poem "Old Ironsides" written by Oliver Wendell Holmes in 1828.

EDMUND L. McNAMARA

Commissioner

BEHIND THE BADGE YOU MUST HAVE A MAN

I was intrigued a short time ago when I came across some old reports concerned with the operations of the "Watch" in the town of Boston.

The reports were for a post-Revolutionary period when many little communities were achieving their corporate growth and preparing to become cities in their own right. In their own way they had their share of crime and law violation. Crime wasn't organized the way we know it today, unless you consider the running of a rum boat from somewhere in the Caribbean to the port of Boston a gangster operation.

In those days everyone seemed to know everyone else. Each one knew the weakness of his neighbor, whether that weakness ran to gambling with cards or a tendency to look upon the grape when it was overripe.

Justice, it seems, was more or less a matter of community dispensation, and the "Watch" pretty much confined its duties to accurate broadcasts of the time, conditions of the weather, and the arrival of the latest cargoes in the harbor.

The world, we must admit, was less complicated, less exciting, and less pressurized than it is today.

Whether it's a better world is not for our judgment. Such comparisons must await the examination of future generations.

Certainly, the "Watch" would have no place in the field of law enforcement today. Its functions are carried out more accurately by regular broadcasts which detail weather conditions down to the smallest dot on the map. And for the time of the night, how could the most faithful member of the "Watch" beat the TV's use of time right out of Greenwich itself?

The evolution of the old "Watch" from its early status of a much earlier generation to its place as a police organization today is difficult to trace.

Indeed, only the most gifted novelist can hold forth the suggestion that there is any relation.

Not many years back the field of chemistry was limited to the apothecaries' shops. If you told the most learned scientist in the world that one man could be identified from all the millions of men in the world by his fingerprints, he would question your sanity.

Today almost every field of science is used by our police in the enforcement of laws, in the detection and prevention of crime.

From the laboratory we have gained weapons for our police that were undreamed of not too many decades back — weapons just

as necessary and just as important as firearms.

Yet, without the intelligence of the men who form our first line of security, these new weapons would be useless. Without the courage, without the dedication to duty, without the talent to make use of all these weapons—our modern police would be as the "Watch" members of old.

It has been truly said that the man behind the badge is the first guarantee of domestic peace and safety.

Without him all the gifts of science, all the modern advances in criminology, would be useless.

Without him we would be back in the days of the "Watch," when life was more simple and crime was under the close control of the neighborhood.

John V. Ceeins Mayor.

THE DEPARTMENT

The Police Department is at present constituted as follows:

The Police Force

HERBERT F. MULLONEY Chief-Bureau of Field Operations

JOHN T. HOWLAND Chief—Bureau of Inspectional Services

WILLIAM J. TAYLOR Chief—Bureau of Personnel and Training

FRANCIS J. HENNESSY

OFFICE OF POLICE COMMISSIONER

ADMINISTRATIVE ASSISTANT=SECRETARY

The Administrative Assistant to the Police Commissioner is responsible for dissemination of police information regarding departmental programs, general crime, and other conditions in the community within the purview of the police. He develops and maintains proper relations with the public by arranging for: speaking engagements; demonstrations; departmental tours; special events; and handling of projects of a public relations nature. He is also charged with the supervision of personnel assigned to the correspondence section of the Police Commissioner's office.

PLANNING DIVISION

The Planning Division of this department was created by the reorganization in 1963. The principal function of this new division is to work in conjunction with the Advisory Board, the Bureau Chiefs, and the various sections or units of all bureaus, in researching, analyzing, developing, and implementing new methods, procedures, and programs.

Some of the more notable projects directed to this division for research were: a Field Interrogation Report; the establishment of a Department Canine Corps; the organization of a biweekly staff meeting of all district captains; the operation of a program known as the Stolen Car Survey, designed to cut down stolen cars throughout the city; the development of a department towing program; the programing of surveys in conjunction with twenty other cities' police forces; and exchanging information gathered by the surveys.

Presently, this division is engaged in rewriting the Rules and Regulations of the department. When this project is completed, the department will have a Book of Rules and a Book of Procedures designed to handle any and all police operations.

BUREAU OF FIELD OPERATIONS

This bureau is charged with the responsibility for the administration of the prime function of any police organization, i.e., the prevention of crime, protection of life and property, and the apprehension of those who have committed crime. All other bureaus of the department serve as auxiliaries to the Bureau of Field Operations to assure every assistance that might be necessary for carrying out the prime police function.

For purposes of efficient administration in supervision, this bureau is subdivided into three divisions, the Patrol Division, Traffic Division, and Criminal Investigation Division.

PATROL DIVISION

This division consists of the sixteen police districts which provide a city-wide uniform patrol force operating around the clock every day of the year for the purpose of preventing crime. Personnel of this division conduct the preliminary investigations of crimes and incidents reported to the police and prepare appropriate reports which provide a permanent record of the incidents and the action taken. In this manner, the investigative units of the department are furnished with the information needed to perform the continuing investigation.

AN ARMED MURDERER APPREHENDED

STOLEN CAR-FATAL ACCIDENT

HARBOR POLICE AND EMERGENCY SERVICE UNIT

Duties performed by the Harbor Police and Emergency Service Unit, District 8, were as follows:

Harbor Patrol Service

A day and night patrol service was maintained by the police boats "William H. McShane," "William H. Pierce," "Patrol Boat 45," and the "Patrol Boat Protector," in the Upper and Lower Harbors, Mystic River, Chelsea Creek, Fort Point Channel, Reserved Channel, Dorchester Bay, and Neponset River.

HARBOR PATROL

Emergency Service Unit

This unit is available on a 24-hour basis. The Emergency Service Unit truck is equipped with emergency weapons, firearms, bomb suits, bomb blast mat, bulletproof clothing, lighting generators, power saw, acetylene cutting torch, hydraulic rescue jacks, wheat lights, riot sticks, road blocking equipment, rope and rescue tools, gas masks, chemox units, life belts, life lines, ladders, and asbestos clothing.

The unit responds automatically to the scene of all fires in the city for which three or more alarms are sounded, to all bomb and explosive reports, and to all requests for assistance from any district or unit requiring lighting, special tools, firearms, and equipment.

The unit also operates the barrier truck located at District 4, for placing large road-blocking barriers when and where they are required on an emergency basis.

The Bomb Squad

After due consideration, in January, 1963, a Bomb Squad was established within the department. This was brought about by the increasing number of incidents wherein explosives and dangerous materials of one kind or another were involved and the coexistent threat of danger to the lives and safety of the public and to members of the department assigned to investigate such cases.

Subsequently nine members of the department, one sergeant and eight patrolmen, were selected to comprise the squad, all of whom are regularly assigned to the department's Emergency Service Unit at District 8. Under the auspices of the Massachusetts State Police, various government military organizations, and the manufacturers of explosives, these men were given extensive training in all phases of bomb handling and disposal. After completing this course of instructions, these officers were awarded certificates and were issued licenses to handle all kinds of explosives by the Department of Public Safety. These men are available for duty on a 24-hour basis.

With the implementation of this unit, the department is better able to insure the personal safety of all citizens in our city whenever a danger presents itself in the form of an explosive material or device.

The department has assigned to District 8 a bomb truck that is designed and equipped to handle and transport explosives.

During the period commencing April 17, 1963, and ending December 31, 1963, the Bomb Squad handled the following articles:

Explosives or Dangerous Material

| Examine | ed | 30 |
|---------|--|----|
| . (a) | Disposed of (by dumping or detonating) | 26 |
| (b) | Disarmed | 7 |
| (c) | Turned over to department chemist for analysis and preparation as evidence, after being disarmed | 4 |

PROTECTION OF LIFE AND PROPERTY

TACTICAL PATROL FORCE

Since it was organized late in 1962, the Tactical Patrol Force has proven the backbone to patrol operations. The purpose of the Tactical Force is to provide a highly maneuverable foot patrol of police officers that will be readily available to augment the personnel of the several districts and units when required.

After high crime incidence areas are determined by the Central Records Section of the Department, the Tactical Patrol Force is deployed into those designated areas to prevent crime and apprehend criminals. Officers attached to the Tactical Force must work a flexible schedule of hours — when serious crime is most likely to happen. The greatest areas of concentration in past months have been in Roxbury, South End, Back Bay, Dorchester, Mattapan, and Downtown Boston.

The Tactical Patrol Force is made up of a highly selective group of officers who undergo an intensive training course in physical fitness and tactical procedures. They maintain quarters at District One, located at 154 North Street, Boston.

Cases ranging from "Operating Under the Influence" to "Armed Robbery" have been successfully prosecuted by members of the Tactical Force in practically every court in the city. They operate in complete harmony with all police districts. Commendations have been given to several members of the unit for outstanding arrests for rapes, robberies, and taxicab holdups.

The Canine Corps is also part of the Tactical Patrol Force, and that unit has been instrumental in effecting several good arrests. Not only can the trained instincts of these animals track down wanted criminals, but their keen sense of smell has been used successfully in finding lost persons, especially children, in the wooded areas of the city.

The Tactical Patrol Force engaged in a variety of assignments such as: attending to dignitaries and offering security during presidential visits; standing by on an alert basis during the recent school demonstrations; participation in the mock disaster program held during the year at Franklin Park; and routine assignments such as aiding the traffic and parking situation, etc.

ON THE TRAIL

TRAFFIC DIVISION

The Traffic Division is responsible for the control of traffic and the enforcement of parking regulations in the area of the city within the boundaries of Districts 1, 2, 4, and 16, and the traffic post at the intersection of Commonwealth Avenue and Boston University bridge, District 14. It is responsible for the prevention and investigation of traffic accidents throughout the city and for the overall supervision of traffic arrangements for major parades, public celebrations, and events of a similar nature. The Traffic Division also provides a safety patrol which functions on a city-wide basis.

The number of vehicles on our highways continues to increase steadily. The total registration figure for the Commonwealth amounted to 2,028,254 for 1963. The comparable figure in 1962 was 1,958.633, reflecting an increase of 69,621 or 3.5 percent.

Notices of parking violations issued by the Boston Police Department for the year 1963 amounted to 490,333, of which 280,911 were issued by the Traffie Division. Corresponding totals for the preceding year are 638,067 and 318,281, respectively. It is to be noted that this is the first year in which the violation tag is prepared by the officer at the scene of the violation and attached to the vehicle, which involves a greater amount of time as compared to the previous procedure.

Vehicles towed by the Traffic Division amounted to 9,751. Towing activity, in relation to parking enforcement, was suspended indefinitely on March 19, 1963, and was not resumed during the balance of the year.

Court prosecutions by the Traffic Division for the year 1963 amounted to 38,312. The corresponding figure for the preceding year is 31,268.

A total of 2,024 notices for moving violations were issued by the Traffic Division during the year 1963. Of this figure 750 warnings were given and 1,274 summonses were issued.

Parking fines paid at the Central Municipal Court for the year 1963 amounted to \$1,008,009.61. The corresponding figure for the preceding year is \$842,007.00.

Parking meter revenue for the year 1963 amounted to \$476,906.76. In the area north and east of Massa-chusetts Avenue, the revenue amounted to \$310,343.85. Corresponding figures for the preceding year are \$833.967.71 and \$633,165.11, respectively.

The M-r Safety Squad of the Traffic Division provided a complete program of safety talks and demonstrations in the city's schools throughout the year, including a full schedule of playground appearances during school vacation periods. The weekly radio program was again presented through the facilities of Station WEZE. The easts for the programs are composed of school children, and programing was prepared with the cooperation of school personnel.

M-I STUDENT SAFETY INSTRUCTION

Arrangements were made and police details provided in connection with the conduct of fourteen parades throughout the year 1963, as well as for many other civic celebrations and events of a public nature. Details were also provided for multiple-alarm fires and other types of emergencies.

Special traffic details and escorts were provided for our late President, John F. Kennedy, on the occasions of his several visits to Boston during the year 1963.

Special details and escort service were also provided for the following named visitors to our city:

President Lyndon B. Johnson, as Vice-President; Senators Kennedy, Saltonstall, Tower, and Goldwater; the Governor of Pennsylvania; the President of Tanganyika; the Prime Minister of Nyasaland; the Prince of Ethiopia; the Prince and Princess of Thailand; the former King of Italy; the Ambassadors from India, Israel, Norway, and the Philippines; the Mayors of Berlin, Germany; Genoa, Italy; and Sligo, Eire; TV and motion picture personalities Hugh Downs, Dennis Weaver, Helen Hayes, Danny Kaye, Patti Page, Ed Sullivan, Richard Chamberlain, Frank Fontaine, and the cast of "Route 66," among others.

During the year 1963, Boston's traffic problem was greatly increased by the extensive demolition and construction activity occasioned by the erection of the new government centers, the Prudential Center, and the extension of the Massachusetts Turnpike, which resulted in the closing of many of our bridges and public ways and required the improvisation of many intricate traffic detour patterns. This problem will remain with us until the completion of these undertakings.

REMINDER TO LOCK YOUR CAR

AUXILIARY SCHOOL PATROL

There is established within the department an Auxiliary School Patrol consisting of 109 uniformed female school traffic supervisors.

Although the primary responsibility of school traffic supervisors is the protection of children going to and from school, they have been appointed special police officers for the purpose of enforcing in the areas adjacent to schools and school crossings, those statutes, city ordinances, and traffic rules and regulations which specifically relate to the operation, parking, and use of motor vehicles.

School traffic supervisors are not members of the regular police force. The hours of duty are intermittent, and their compensation is on a per diem basis. School traffic supervisors serve under the direct supervision of district commanders.

During the period of time the Auxiliary School Patrol has been in existence it has proven to be a highly efficient unit and has made possible the redeployment of our regular police officers for more specialized police duties.

SCHOOL SAFETY

CRIMINAL INVESTIGATION DIVISION

The Criminal Investigation Division is composed of several sections, namely, Crimes Against Persons, Crimes Against Property, General Investigation, Juvenile Aid, and Vice Control.

In addition, special units are assigned to cover the following phases of police work and investigations: Homicide, Robbery, Automobile, Worthless Checks and Frauds, Lost and Stolen Property, Hotels, Pawnbrokers, Junk Shops, Secondhand Dealers, Pickpockets, Shoplifters, Domestic Relations, Subversive Activities, Crime Laboratory, Ballistics, Gaming Offenses, Narcotics and Vice, and Rendition.

Members of this division investigate felonies committed within the jurisdiction of the City of Boston. They also process cases of fugitives from justice and conduct hundreds of investigations during the course of a year for various police departments throughout the United States and foreign countries. Further, they cooperate in every way possible with outside police departments in the investigation of crime and prosecution of criminals.

CRIMES AGAINST PERSONS SECTION

Homicide Unit

Personnel assigned to this unit investigate all homicide cases and interrogate persons involved in or who have knowledge of crimes of murder, manslaughter, abortion, and other violent crimes. They prepare, supervise, and present evidence at inquests. Transcripts of statements received by these officers from witnesses and defendants are prepared for use as evidence in trials of capital cases.

Members of the Homicide Unit also questioned approximately fifteen hundred (1500) persons, both male and female, in their investigations of the strangulation murders.

Recapitulation of Homicides

Thirty-six cases were presented to the courts as criminal homicides and the following action taken:

- Defendant (juvenile) adjudicated delinquent child—manslaughter—released in custody of probation officer—disposition March 24, 1964.
- 1 Defendant (juvenile) adjudicated delinquent child—manslaughter—committed to Youth Service Board.
- Defendant (juvenile) juvenile delinquency complaint dismissed—criminal complaint issued—probable cause found—held for Grand Jury on charge of murder.
- 2 Defendants (juvenile) juvenile delinquency complaints dismissed—criminal complaints issued—probable cause found—indicted for murder, first degree—pleaded guilty to manslaughter.
- Defendant (female) charged with murder—no probable cause—lower court.
- 2 Defendants (female) charged with murder—indicted for manslaughter—pleaded guilty to manslaughter.

Male defendants:

- Defendant complaint issued for murder—committed to Boston State Hospital—transferred to Bridgewater before hearing in lower court.
- 4 Defendants charged with murder—indicted for manslaughter—pleaded guilty to manslaughter.
- 2 Defendants charged with murder—indicted for manslaughter—pleaded guilty to manslaughter.
- 3 Defendants charged with murder—indicted for manslaughter—found guilty of manslaughter.
- 1 Defendant charged with murder—indicted for murder, second degree—committed to Bridgewater.
- 6 Defendants charged with murder—indicted for murder, second degree—pending trial in Superior Court.
- 3 Defendants charged with murder—indicted for murder, second degree—pleaded guilty to manslaughter.
- Defendant charged with murder—indicted for murder, second degree—found not guilty.
- 2 Defendants charged with murder—indicted for murder, second degree—found guilty of manslaughter.
- 1 Defendant charged with murder—indicted for murder, second degree—found guilty of murder, second degree.
- Defendant charged with murder indicted for murder, first degree committed suicide before apprehension.
- 3 Defendants charged with murder indicted for murder, first degree pending trial in Superior Court.
- 7 Defendants charged with murder indicted for murder, first degree found guilty of murder, first degree jury recommended death penalty not be imposed.

 (Forty-three defendants in thirty-six homicides)
- 9 Murder cases still under investigation.

Robbery Unit

During the past year, officers of this unit have conducted 397 investigations resulting in 249 arrests for serious crimes committed in Boston. These officers have been commended by the Federal Bureau of Investigation and local police departments for their cooperation in aiding in the apprehension and convictions of criminals responsible for bank robberies and thefts of interstate shipments.

Members of this unit work in conjunction with and assist officers of the various police districts in the apprehension and conviction of criminals in all parts of the city.

The daily line-up of all prisoners arrested for felonies is conducted by officers of this unit.

CRIMES AGAINST PROPERTY SECTION

Automobile Unit

The essential responsibility of the Automobile Squad is to investigate all new car, used car, and motor vehicle junk dealers, licensed by the Police Commissioner, for the purpose of ascertaining their suitability for the issue and yearly renewal of their respective licenses. Frequent inspections are made to ascertain if used car dealers are complying with the conditions of their licenses.

The second basic function of the Automobile Squad relates to stolen and abandoned vehicles. Daily reports listing all missing or stolen vehicles reported to units of this department and other law enforcement agencies are received at this office. Index cards for each vehicle are prepared from the reports and are then compared with similar cards prepared from daily reports from approximately 205 licensed dealers. A search for the stolen vehicles is initiated both individually and with the assistance of every officer of the department who is provided with a weekly list of all missing vehicles.

This unit is in daily communication with police authorities of the United States and Canada. Many investigations are made in cooperation with the Federal Bureau of Investigation, Post Office Department, National Auto Theft Bureau, Registry of Motor Vehicles, and immigration authorities of the United States.

Records of Automobiles Reported Stolen in Boston for the Year Ending December 31, 1963

| 7 | lonth | | | Reported Stolen | Recovered During Month | Recovered Later | Not Recovered |
|---|-------|---|---|--|--|--|--|
| February March April April May June July August September October November December | | • | | 540 590 806 765 653 672 669 702 681 659 590 594 | 506 551 744 688 573 589 603 644 624 605 544 499 | 19 12 23 44 23 37 20 22 26 33 19 | 15 27 39 33 57 46 37 36 39 21 27 |
| Totals . | | | Þ | 7.921 | 7,170 | 287 | 464 |

Stolen Property Recovered

| | Value |
|---|-----------|
| 13 stolen ears recovered (abandoned) | \$19,950 |
| 19 stolen cars recovered in possession of individuals | 79,000 |
| Cash paid through courts, by individuals arrested, in restitution for money obtained through sales of | |
| stolen cars: | 14,300 |
| Total | \$113,250 |

Officers of this unit made several arrests of individuals involved in auto theft "rings" resulting in the recovery of the above-mentioned property.

Worthless Checks and Fraud Unit

This unit maintains records on all known check passers and check-passing rings. A file card index is maintained on all checks being passed, and on all check passers, listing their known associates and any alias being used by them.

This unit is constantly in contact with law enforcement agencies throughout the state, the Federal Bureau of Investigation, Postal Inspectors, and Secret Service. As a result of information that has been compiled, the Bank Unit is gradually becoming a clearing house for check activities throughout New England.

A large degree of the successful activities of the Bank Unit can be attributed to the complete cooperation of Regiscope Distributors and Protection Service, Inc. Positive identifications have been made of check passers and their associates from photographs provided by Regiscope, not only on request but on a voluntary basis as well.

During the past year 103 persons have been arrested for cases originating in this unit. In addition, nine persons have been arrested for law enforcement agencies outside Boston.

The following convictions have been obtained in all courts during the year 1963: 314 Uttering . . . 313 Larceny by means of worthless check 282 72 Receiving stolen goods . . . 25 Attempted larceny by worthless check Assault and battery by means of dangerous weapon 1,022

Lost and Stolen Property Unit

A description of all articles reported lost, stolen, or found in this city is filed in this unit. Many cities and towns throughout the United States forward lists of property stolen in such places. All pawnbrokers and second-hand dealers submit daily reports of all articles pawned or purchased. A comparison of the description of articles reported lost or stolen and those articles which are pawned or purchased by dealers resulted in the recovery of thousands of dollars' worth of stolen property and the arrest of many thieves.

Files are maintained on all rifles, shotguns, machine guns, pistols, and revolvers that have been lost or stolen in the six New England states and New York.

Pawnshops and secondhand shops are inspected daily for the purposes of identifying property which may have been stolen.

GENERAL INVESTIGATION SECTION

Ballistics Unit

The essential function of the Ballistic Unit is the examination and identification of firearms, spent bullets, and discharged cartridge cases, which come into the possession of and/or the attention of this department.

On numerous occasions the ballistician or one of his assistants has reported to the scene of a crime to obtain this evidence. On off duty hours, this is accomplished by the means of a call system, whereby the ballistician or one of his assistants may be contacted at his home, thereby giving the Ballistics Unit a 24-hour coverage every day.

Upon completion of microscopic examinations and identifications of evidence, a report is submitted and said evidence is held in the care and custody of this unit until such time as the ballistician or one of his assistants presents the evidence and the results of the examination and his opinions to the various courts throughout the city and state.

During the period from January 1, 1963, to December 31, 1963, the services of this unit were requested in six hundred and fourty-two (642) eases, listed as follows:

CONFISCATED ARSENAL FOR CRIME

Crime Laboratory

The services of the Crime Laboratory are being utilized at an increased pace in the several districts as a result of the in-service training program at the Police Academy. The lectures at the academy by the department chemist before Supervisory Personnel have alerted them to the importance of procedures to be followed at the crime scene and a definite understanding of preserving intact the crime scene area. The lectures have enabled the biochemist to explain the latest techniques of obtaining and preserving evidence which has increased the use of the facilities at the several districts.

During 1963 the Crime Laboratory Unit has more than doubled its case load. In an attempt to compensate for the increased demands placed upon this unit, a laboratory technician was assigned in May. His work has been exemplary and his background and experience in police work and in chemical technology are invaluable to the unit.

A working relationship has been effected between the Emergency Service Unit and the Crime Laboratory Unit, resulting in more efficient preservation, collection, and handling of physical evidence at bomb and explosion scenes.

A letter of commendation from the U. S. Attorney's Office in Boston was received for work done by this unit in conjunction with the Robbery Unit.

An important step forward was the assignment of a station wagon to be outfitted as a mobile crime laboratory. This has already resulted in more expeditious and efficient crime scene and vehicle searches.

As a result of the arrests made by this unit there were 186 court orders of suspended sentences and fines ranging from \$10 to \$100 and from three months to two years House of Correction; 92 court orders of fines and commitments to the House of Correction for terms of three months to eight years; 240 court orders of probation ranging from two weeks to six years.

Amount of money involved in 44 counts of larceny by fraud was \$54,774.15.

There were 45 orders of restitution to be made to the Welfare Department of the City of Boston amounting to \$22,922.32.

Ninety-seven cases were removed from the rolls of the City of Boston Welfare Department, amounting to \$98,994.40.

There were 210 court orders of support of families amounting to \$225,322.00.

Amount of money resulting from persons removed from the welfare rolls of the City of Boston and court orders of partial support and full support of families and restitution amounted to \$347.238.72.

Members of this unit have investigated 1,640 cases in the past year that have been referred to this unit by local and out-of-state authorities. Investigation in a number of these cases is still being pursued.

Rendition Squad

Fugitive from justice complaints were obtained and sixty-three arrests made in the various courts of this city. These complaints and following continuances required 107 appearances in the Boston Municipal Court 76 appearances in the Roxbury District Court, eleven appearances in the Dorchester District Court, three each in the East Boston, Charlestown, and West Roxbury District Courts and two each in the Brighton and South Boston District Courts. Seventeen appearances were also required in the Federal Building before the United States Commissioners. A grand total of 224 court appearances.

Forty-nine defendants have been returned to demanding states during the past year. Thirty-two defendants were not returned due to warrants being dismissed by demanding states or refusal of the Commonwealth to rendite same. Seventeen cases are now pending, ten of these old cases where the defendants are in custody.

Eleven out-of-state warrants have been returned without service after investigation. Forty-three investigations have been completed for out-of-state cities and towns.

Special Service Unit

Officers are assigned to unmarked police vehicles to patrol all sections of the city and designated districts. Their principal duties are to investigate all crimes of street violence, armed robberies, rapes, aggravated assaults, and other crimes.

JUVENILE AID SECTION

The Juvenile Aid Section operates for the prevention of delinquency among juveniles and to maintain a program of constant cooperation with all agencies in the child welfare field for the rehabilitation of maladjusted children.

Duties in General

- 1. Develop a program of crime prevention intended to eliminate factors which induce criminal tendencies among children.
 - 2. Enlist the aid of the general public, child welfare agencies, districts and units of this department.
- 3. Teach good citizenship; develop a proper mental attitude of citizens toward law-enforcement agencies; educate the public in the problems of crime prevention and suppression of juvenile crime.
- 4. Determine persons and places which in any way contribute to delinquency of children; investigate and take necessary action to correct such conditions.
- 5. Supervise and inspect places of public amusement, hotel, bus, and railroad stations, and places where large numbers of juveniles congregate.
 - 6. Control existing problems by modern and efficient juvenile police methods.

Summary of Work Accomplished

The juvenile officers arrested and prosecuted 1,813 male and 260 female juveniles in the following age groups:

| AGE | 7 | 8 | 9 | 10 | 1 1 | Ι2 | 13 | 14 | 15 | 10 | TOTAL |
|--------|---|----|----|----|-----|-----|-----|-----|-----|-----|-------|
| Male | 7 | 17 | 41 | Sī | 100 | 147 | 218 | 301 | 441 | 460 | 1,813 |
| FEMALE | 0 | 0 | I | 0 | 6 | 16 | 30 | 00 | 75 | 66 | 260 |

In accordance with the program of detecting and prosecuting all adults who are in any way involved in unlawful activities concerning juveniles, 189 male and 16 female adults were prosecuted.

The officers also brought to their respective districts for questioning in regard to criminal offences committed on each district 2,663 male and 444 female juveniles. As a result of the interrogation, together with personal interviews with the parents of these children, it was determined to be for the best interests of the children, parents, and the city to return them to their parents without bringing them before the court for delinquency proceedings.

This part of the juvenile plan in the City of Boston is the contribution of the Boston Police Department towards the rehabilitation of the child, which is dramatically bourne out by the fact that the number of recidivists still remains below r per cent. It is justification for the continuance of this policy in Boston with the child being returned to the parents after an investigation by the juvenile officer, in the case of first offenders, without having the stigma of a juvenile record attached to the child, who, after the proper disciplinary action by the parents, would not and does not appear in the over-all juvenile delinquency pattern again.

There were 5,385 cases processed by the Juvenile Aid Section for this period, including the cases brought to court and the cases turned over to the parents of the children for disciplinary action.

This bureau presented lectures to many different organizations in an effort to educate the public to the scope of juvenile delinquency, the elementary causes, the policies, plans, and procedures of the Juvenile Aid Section. The results of these lectures are reflected in many ways, such as the multitude of organizations which are now conducting campaigns against the sale of indecent literature and photographs to children, the organizations which are now offering athletic programs to children, and, most important of all, the supervisory interest that parents are now taking in their children. It cannot go without mention that the tremendous cooperation this bureau is receiving from the clergy, the schools, and the agencies of the City of Boston is directly related to this program of acquainting the public with the juvenile delinquency problem in this city.

During the past year the juvenile officers personally contacted many people who were engaged in some phase of children's work in the City of Boston, including school teachers, librarians, court attachés, clergymen, boys' club and girls' club workers, and those people who staff the many agencies working for the betterment of children. This phase of the program is to make all of these people more fully aware of the fact that the police are cognizant of their importance in the overall battle against delinquency and realize that delinquency shall be defeated only by the cooperation of all parties working for a common cause.

During the year the juvenile officers have carried on a program of cooperation with the supervisors of attendance in the public schools which is worthy of special mention due to the fact that it is now officially recognized that truancy has decreased in Boston because of the work that has been done in this field.

Also during the year, due to the fact that the officers through their contact with the various agencies have learned what each agency is specializing in, many hundreds of our unfortunate families have been assisted by the agencies after a referral had been made to them by the officers who, because of their knowledge of the neighborhood of assignment, recognized the fact that these people were in dire need of assistance.

It will be noted that a comparison with the annual report of the year 1962 shows that this bureau processed and handled approximately 1,000 less cases even though it is noted that 162 more juveniles were placed before the courts. In the light of the reported upward trend on a national level, these facts should be regarded as encouraging.

512

VICE CONTROL SECTION

Narcotics and Vice Unit

The Narcotics and Vice Unit is charged with the investigation and prosecution of persons who commit crimes against chastity, morality, decency, and good order, involving the unlawful sale, distribution, and use of narcotic drugs and derivatives and the importing, printing, publishing, selling, distributing, or exhibiting of obscene or impure literature, prints, pictures, etc. This unit also cooperates with federal agencies in the investigation of interstate prostitution and transportation of narcotic drugs and obscene literature.

Members of this unit have worked in close cooperation with the Federal Bureau of Investigation, Federal Narcotic Bureau, Post Office Department, Alcoholic Tax Unit of the Federal Government, the District Attorney's Office, as well as the state and local police departments.

Officers of this unit have appeared at twenty engagements to speak before various civic, religious, and educational groups on narcotic problems. A complete exhibition of narcotic and harmful drugs is on display in this office. Visiting law enforcement officers as well as civilians on tour of Police Headquarters are shown this display as part of education in problems of narcotic law enforcement.

Gaming Unit

The enforcement of gaming laws by officers assigned to this unit has become increasingly more difficult due to recent court decisions affecting the arrest process and admissibility of evidence, as well as by the ingenious techniques resorted to by this type of offender in destroying evidence, such as the use of "flash paper" which bursts into flames when touched by a cigar or cigarette and the recording of bets on formica-treated boards and cards which can be readily erased with the palm of the hand.

In one case, coded betting notations were submitted to the Federal Bureau of Investigation for decoding by a cryptographer while in another case the Federal Bureau of Investigation furnished the services of an agent to testify as an expert witness on handwriting and gaming.

During the past year officers of this unit conducted 920 investigations resulting in 511 arrests.

BUREAU OF GENERAL SERVICES

This bureau has the responsibility of the administration of all other auxiliary services which must be provided to assure effective police operations, including maintenance of police buildings and equipment, requisition of supplies, laboratory examination of physical evidence, records and communications, identification and custody of prisoners.

The quality of police service and the success of many police operations are dependent on the suitability of equipment and the maintenance of police buildings. In order to provide an effective span of control, this bureau is separated into the Central Services Division and the Records and Communications Division.

CENTRAL SERVICES DIVISION

The Central Services Division has direct responsibility for administrative supervision of the City Prison, House of Detention for Women, building and equipment maintenance, the processing, care, and custody of non-departmental property and inventory, and the custody and distribution of departmental-owned supplies and equipment. This division is also responsible for the processing of all licenses issued by the Police Commissioner.

Satisfactory maintenance and repair of property and equipment promote efficiency, morale, and prestige of the police service and have a direct bearing on good public relations.

PROPERTY CLERK UNIT

The Property Clerk Unit is charged with the care of all police buildings; lost, stolen, and abandoned property; money or other property alleged to have been illegally obtained; and all articles and property taken from persons arrested for any cause. In its custody are also placed all seized liquor and gaming implements which come into the possession of the department.

All orders for supplies, building maintenance, uniforms, and equipment are issued by this office.

During the year, 218 motor vehicles came into custody of this office; sixteen vehicles were released to legitimate claimants, and 268 vehicles were sold at public auction. There are now fifty-four motor vehicles in custody.

A maintenance shop for the servicing of the department automobiles is in operation on a 24-hour basis. During the year, on 7,688 occasions, department ears were repaired, and, on 2,045 occasions, cars were serviced. There were 371 department cars and 220 privately owned cars towed by the department wrecker. The department operates a motorcycle shop where, on 830 occasions, motorcycles were repaired and serviced during the year.

This unit is responsible for the inspection of all department vehicles, all garages in the various districts, and is required to investigate and report on all accidents involving department vehicles.

POLICE SIGNAL SYSTEM

Signal Boxes

The total number of boxes in use is 562. Of these 530 are connected with the underground system and 32 with the overhead.

Miscellaneous Work

In the past year employees of this service responded to 1,595 trouble calls, inspected 562 signal boxes, 15 signal desks, 17 motor generator sets, 500 storage batteries. Repairs have been made on 218 box movements, 23 registers, 147 locks, 26 time stamps, 27 vibrator bells, 28 relays, 35 electric fans, 45 motors, and 15 generators. This unit is responsible for the installation and maintenance of all electric wiring and equipment at all police buildings.

Connected with the police signal boxes are 60 signal, 562 telephone, and 79 blinker-light circuits.

The Signal Service Unit supervises all telephone and teletype installations and minor teletype repairs throughout the department. It also maintains 50 headquarters-to-station house telephone circuits, 17 teletype-writer circuits, 17 radio-wired broadcast circuits, a circuit, with equipment, at the Charlesbank Station of the Metropolitan District Police, and the intercommunication units throughout the department.

Payments on Account of the Signal Service During the Year Ending December 31, 1963 (Included in Table XI)

CITY PRISON

The City Prison under the direction of the Bureau of General Services is located in the New Court House Building, Somerset Street, Boston.

Males arrested in the city for offenses the prosecution of which is within jurisdiction of the Central Municipal Court are conveyed to the City Prison and, unless otherwise released, are held in charge of the keeper until the next session of the court before which they are to appear.

If sentenced to imprisonment, or held for a grand jury, they are conveyed by county authorities to the institution to which they have been sentenced, or to the Charles Street Jail to await such grand jury actoin.

During the year, January 1, 1963, to December 31, 1963, 10,575 men were committed to the City Prison, as follows:

| Assault and battery . | | 41 | Lewd and lascivious cohabitation | 1. | | I |
|-----------------------|------|--------|----------------------------------|----|--|--------|
| Automobile law . | | 9 | Nonsupport | | | 17 |
| Breaking and entering | | 1 | Violation probation | | | |

| Indecent exposure | | I | Trespassing | | | 2 |
| Larceny | | 12 | | | | |
| Lewdness | | 1 | Total | | | 10,575 |

Two hundred and twelve male lodgers were received and cared for during the year.

HOUSE OF DETENTION

The House of Detention for Women is directed by the Bureau of General Services and is located in the New Court House Building, Somerset Street. All women arrested in the city are conveyed to the House of Detention, and, unless otherwise released, are held in charge of the chief matron until the next session of the court before which they are to appear.

If sentenced, or held for a grand jury, they are conveyed by county authorities to the institution to which they have been sentenced, or to the Charles Street Jail to await such jury action.

During the year 2,364 were committed as follows:

| Abandonment | | | | | т | | Liquor | law. | violati | O11 | | | | | | |

HACKNEY CARRIAGES

Chapter 302 of the Acts of 1030, as amended, limits the number of licenses to set up and use hackney carriages in the City of Boston to 1,525.

During the police year, January 1, 1963, to December 31, 1963, due to changes of ownership and regrants, a total of *2,185 licenses were granted.

There were 285 articles, consisting of umbrellas, coats, handbags, etc., found in carriages during the year, which were turned over to the office of Inspector of Carriages. Of these 145 were restored to the owners, and the balance of 140 placed in the custody of the Property Clerk.

The following statement gives details concerning public hackney carriages, as well as licenses to drive the same:

Hackney Carriage Licenses

| Applications for carriage licenses received | 2,185 |
|---|-------|
| | 2,185 |
| Carriage licenses canceled (in favor of "regrants" and "changes of ownership") | 659 |
| Carriages licensed — "changes of ownership" | 153 |
| Carriage licenses in effect December 31, 1963 (at end of police year) — licensed since February 1, 1963 | |
| (beginning of hackney carriage license year) | 1,525 |
| Carriages inspected | 2,031 |

*506 "regrants"

RECORDS AND COMMUNICATIONS DIVISION

This Division is charged with the administrative supervision of the Central Complaint Section, Central Records Section, Identification Section, Printing Unit, and Data Processing Unit.

The Central Records Section is the information center of the department and coordinates all police record requirements so as to form a fully integrated system. The section is open around the clock to provide assistance to other police activities. It contains all department administrative and operating records and exercises staff control over all reporting units to assure timely submission of reports that are both complete and accurate. All warrants are processed by this section.

The Central Complaint Section receives complaints and reports of crime and other incidents from the public, and assigns radio car personnel to investigate the reports as received. It also generally controls the immediate deployment of field personnel, subject to appropriate authority in emergency situations.

The Identification Section provides for photography and fingerprinting of arrested persons and maintains both criminal and civil files of fingerprints and photographs.

CENTRAL COMPLAINT SECTION

The Central Complaint Section has control over all communications consisting of telephone, teletype, radio, and telegraph.

There were 585,201 outgoing telephone messages and 4,574 toll calls made by the department through our switchboard; 558,410 emergency messages were received and processed at the Complaint Desk through either DE 8-1212 or the department intercommunication system; 610,201 telephone messages were received through our switchboard, many of which were transferred to the Complaint Desk for processing; 272,360 teletype messages and 553 telegrams were processed, 15,446 of these relating to missing persons; 20,725 automobiles and registration plates were reported lost or stolen, and 18,396 were reported recovered; 900,000 radio messages were sent.

On an average month some 75,000 radio messages are processed over our radio system to and from mobile equipment and police boats. A soundscriber records accurately each radio transmission and provides the department with an important administrative record of same.

In June of 1963, a contract was entered into with Motorola Corporation to convert the department's radio communication system from a low-band broadcasting frequency to a high-band frequency; to change from a radio tube system to a highly transistorized one; to set up a new base station; to supply the latest in walkie-talkie equipment; and provide new radio equipment for both the Harbor Police Boats and the department motorcycles. Most of the installation work was performed by personnel of the Radio Maintenance Unit, while at the same time it carried on regular maintenance operations so that no breakdown occurred during the transition period.

DUAL DISPATCHING WITH LATEST EQUIPMENT

EMERGENCY - DEvonshire 8-1212

CENTRAL RECORDS SECTION

The Central Records Section is located on the third floor of Police Headquarters.

Over \$28,092 was collected for work permits and requests for records during the past year by this section.

This section now assigns all booking numbers for arrests for all districts, which resulted in the making and filing of approximately 75,000 additional 3 x 5 cards in the main index files of this unit without the addition of extra personnel. This system now permits officers of the department to know at any time if a particular individual has or does not have an arrest record in this city for any offense.

During the year there were 3,685 additional Bureau of Records folders added in the files, a system started in January, 1962, in an attempt to obtain separate folders for each individual arrested by this department.

Multilith and Mimeograph

The multilith machine was used to make 1,275,600 impressions consisting of department forms, letters, police bulletins, and IBM cards.

The mimeograph machine made 625,900 impressions consisting of daily manifolds, bulletins, circular letters for the various units and districts including police school lessons.

^{*} Does not include those interviewed at the various units and districts of the department.

DATA PROCESSING UNIT

During the past year members of this unit collaborated with the Administrative Services Department of the City of Boston in converting police lists of residents of this city from an expensive complicated printing procedure to a less expensive, more efficient data processing system. Through the use of data processing equipment, voting lists and ward and precinct books are now produced at substantial savings to the city.

Starting in 1962, preparation of notices of parking violations to be mailed to offenders were processed by this unit, through use of data processing equipment. This particular function required the renting of additional expensive equipment and made serious inroads on time needed for performance of existing operations because of detail involved by this process. As a result of these inefficiences, the department actively sponsored and submitted for legislative approval the tag-on-vehicle procedure which is now law.

During 1963, due to this new law and a streamlining of our data processing procedures, many of those machines were eliminated, resulting in future savings of \$11,760 annually

This unit prepares crime statistics on a district basis so as to insure the deployment of officers and equipment in the most efficient and effective manner. Annual, quarterly, and monthly reports and analysis of crime and services rendered are compiled by personnel of this unit, and high crime incidence areas are determined by the use of a "statistical reporting area" system.

Accurate and detailed reports are prepared here and are forwarded to the Federal Bureau of Investigation.

Polygraph

In June of 1963 the department acquired a polygraph or lie detector machine. Inasmuch as the examiner or machine operator and the questions he asks are of prime importance, a carefully selected member of the department was sent to Chicago to attend a six-month course at the Reid Polygraph Institute on a scholarship provided by a local business organization. The use of this machine will reduce substantially the countless number of man-hours spent interrogating persons suspected of homicides and other serious crimes and aid immeasurably in the apprehension of criminals. Conversely, this machine will be even more useful in determining a person's innocence and prevent inconvenience to the public.

The following is a report of activities in the Polygraph Unit up to December 31, 1963.

| Number of five-finger cards on file December 31, 1963 Number of Main Index cards cross-indexed to five finger system December 31, 1963 Number of latent prints found at crime scenes, on file in the Identification Section December 31, 1963 Number of connections made by latent prints since the system was established | 24,680 12,340 1,445 484 |

There were 45 identifications made through the viewing of the mug files (both black and white and colored mugs) of this department during the year 1963. There was also incorporated into the segregation system of the mug files a separate file of arrests by districts, which enables an officer or witness to view photos of persons arrested in any particular area or on any district.

During the year there were 1,445 latent prints found at the scenes of crime in the city, and returned to this unit; this is an increase of 310 over the same period in 1962. The Latent Print Unit made 44 identifications from the prints found at crime scenes.

There were 622 crime scenes photographed during the year 1963.

The Photographic Unit has branched into more extensive use of 16 mm. movie equipment owned by this department in the area of surveillance work and with a view of practical application of this equipment in the field of training films. The results of this are not complete, but are very promising.

DID HE LEAVE A PRINT?

BUREAU OF INSPECTIONAL SERVICES

This bureau was established for the purpose of having an inspectional service that operates beyond the scope of the Bureaus of Field Operations, General Services, and Personnel and Training.

The Bureau of Inspectional Services consists of three divisions, namely, Staff Inspection, Internal Affairs, and Intelligence.

The reports of all its investigations, inspections, and recommendations are forwarded directly to the Police Commissioner

STAFF INSPECTION DIVISION

This division is charged with the responsibility of conducting periodic inspections of the entire police operation, on a continuing basis. The purpose of these inspections is to determine whether:

- 1. Personnel are sufficiently supervised, trained, and being deployed in the most effective manner.
- 2. Plant and equipment are being maintained and efficiently utilized.
- 3. Rules, regulations, general orders, and policies of the department are being complied with.
- 4. Present rules, regulations, and policies are sufficient to meet the present day-to-day demands on the department.
- 5. There are any deficiencies in such matters as integrity, morale, or supervision which should be corrected or improved.

During the first six months of 1963, personnel of the division aided in coordinating the implementation of recommendations made by the Field Service Division of the International Association of Chiefs of Police.

A program is presently under way that is designed to insure that each of the several police districts and units will be inspected on an annual basis to determine adequacy of personnel-public relationships, and the processing of prisoners by the police.

During the month of August, personnel of this division conducted a comprehensive survey and inspection of the Property Clerk Section. All clothing and equipment was carefully inventoried to determine the material on hand that can be utilized.

Late in 1963, a field trial of a proposed arrest record and procedure was conducted by officers of this division.

INTERNAL AFFAIRS DIVISION

Personnel of this division conduct investigations of all police recruits prior to their appointment in order to insure the selection of the most qualified persons for appointment to the Police Department. All complaints against police officers or civilian employees of the department, both of an external or internal source, are investigated by division personnel or referred to the proper authority. Supervision of the departmental disciplinary process is also the responsibility of this division.

The Internal Affairs Division has established amiable liaison with several minority and civil liberty groups for the purpose of exploring any problems in this area and to bring about improvements when the need is indicated.

During 1963, seventy recruits were investigated prior to appointment. One hundred and fifteen complaints were investigated and settled to the satisfaction of the complainants. Representatives of this division were present at all department Trial Boards and conducted fifteen investigations within the department that involved department personnel.

During the year, 875 hours of punishment duty were meted out by Trial Boards, and fifteen other type disciplinary actions were taken. One resignation and one dismissal were brought about as a result of personnel misconducts.

As a result of recommendations made by this division, procedures were established that caused a reduction in personnel sick leave.

INTELLIGENCE DIVISION

This division is responsible for keeping the Police Commissioner informed on the status of organized crime and the activities of known criminals in the city.

During the past year officers of this division have compiled a comprehensive filing system of the activities of known criminals, organized crime, various groups which require police surveillance, and locations which have been used for criminal activity in the past or which are suspected of being used for criminal activity. This division initiated field interrogation reports which are now being received from officers in the several districts who observe and/or interrogate persons suspected of being involved in unlawful activity. These reports are evaluated before being filed, and the information is then forwarded to the proper unit or agency. In addition, information received from various sources must be evaluated, and in most cases the officers of this division must conduct an investigation to verify the information which was received.

The officers assigned to the Intelligence Division are constantly conducting investigations and making surveillances in an effort to keep abreast of the activities and locations of known criminals in Boston and the surrounding areas.

In addition to furnishing the various districts and units of this department with information which has assisted in the solution of a large number of crimes perpetrated in this city, this division is working constantly with other departments and agencies, on local, state, and federal levels. In this way we have received information valuable to officers of this department and also have furnished other agencies and departments with information which assisted them in solving crimes perpetrated in their jurisdiction.

BUREAU OF PERSONNEL AND TRAINING

This bureau is perhaps the most important auxiliary to the main police function. Without proper selection and training procedures, the police function would be seriously imperilled.

The task of recruiting, training, evaluating, and assigning personnel becomes a considerable and responsible undertaking.

PERSONNEL DIVISION

This division is responsible for the maintenance of departmental personnel files and for the assembling and recording of the background and abilities of all department members. It administers the personnel evaluation program and encourages department members to improve their educational and technical competence. The Personnel Division is also responsible for the preparation of payrolls and the maintenance of payroll records. It also handles the acquisition and processing of new personnel and arranges for the medical examination of all personnel.

During the past year, old personnel files have been purged and selected material captured on microfilm. New filing systems have been introduced to accommodate badge numbers, payroll indexes, blood types of employees, sick leave information, and absentee statistics.

MEDICAL UNIT

The office of the Department Medical Examiner is located on the seventh floor of Police Headquarters and consists of the doctor's office, a fully equipped and modernized examination and treatment room, a waiting room, and secretary's office.

Upon entrance into the department, all persons certified for appointment by the Division of Civil Service either for the uniformed ferce or in civilian capacity, as well as those employed for civilian duty on a temporary basis, are examined, and a physical report on each is submitted to the Police Commissioner.

All members of the uniformed force are examined for injuries incurred either in the performance of duty or when off duty. Those members whose injuries bring about a period of absence and those incapacitated by a prolonged illness are given a periodic examination. The diagnosis and prognosis in each case as to availability to perform police duty are submitted to the Police Commissioner with recommendations. Permanent records are maintained which aid in decisions affecting continuance in the service or retirement, as the case may be.

Preventive inoculations are administered by the Medical Examiner to the members of the force to meet any exigency, such as in the case of an epidemic of influenza, poliomyelitis, etc. These immunizations are given on a voluntary basis. Also on a voluntary basis, and at various intervals, members of the force report to the Medical Unit for the purpose of donating their blood to the American Red Cross.

Reports bearing upon each case of members of the department receiving medical examinations are submitted to the attention of the Police Commissioner and for the personnel record of each officer concerned.

TRAINING DIVISION

This division administers and operates the Police Academy. It is mainly responsible for the development of a progressive program for recruit, in-service, specialization, supervisory, prepromotional, and command training. The immediate goal is to establish a continuous in-service training program for all grades within the department.

During the past year, over 130 training lectures were developed for the guidance of personnel attending the Academy. All personnel who were processed through the Training Academy were exposed to mock court sessions.

The recruit program was extended from eight to thirteen weeks, with greater stress placed on civil rights, public relations, public speaking, case preparation, and court presentations. Outstanding personalities, such as jurists, doctors, defense counselors, psychiatrists, sociologists, etc., supplemented our regular police instructors in offering a well-rounded training program.

The Training Division is also responsible for the proper functioning of the Drillmaster and Firearms Training Units. Officers assigned to the Firearms Training Unit developed a new type "Practical Pistol Course" that now provides instruction in combat firing under city conditions.

The Training Academy also proudly boasts of a museum that links the past with the present, with its many outstanding displays.

EFFICIENCY THROUGH TRAINING

ON PARADE

RECIPIENTS OF AWARDS

RICHARD CARDINAL CUSHING
PRESENTS WALTER SCOTT MEDAL
FOR VALOR TO PATROLMAN
ROBERT S. SKEHAN

THE WALTER SCOTT MEDAL FOR VALOR

DEPARTMENT MEDAL OF HONOR

THE THOMAS F. SULLIVAN AWARD

TO

PATROLMAN ROBERT S. SKEHAN DISTRICT FIFTEEN

On August 31, 1063, Patrolman Robert S. Skehan apprehended a Charlestown resident wanted for the vicious murder of a young girl. At the time this man was apprehended he was armed with a large carving knife and submitted to arrest only after being wounded by Patrolman Skehan.

DEPARTMENT MEDAL OF HONOR
THE THOMAS F. SULLIVAN AWARD
TO

PATROLMAN THOMAS H. SCOTT
PATROLMAN MICHAEL A. BOCCUZZI
DISTRICT TEN

On the afternoon of January 2, 1963, Patrolmen Thomas II. Scott and Michael A. Boccuzzi arrested three men at gunpoint, one of whom was armed with a fully loaded .45 calibre U. S. Army automatic pistol, for robbery of a market in Jamaica Plain. At time of their apprehension these men were still in possession of the proceeds of the robbery. They are now serving sentences in Walpole State Prison.

DEPARTMENT MEDAL OF HONOR TO

PATROLMAN FRANCIS V. CONNOLLY DISTRICT FOUR

Patrolman Connolly, while off duty and en route to his home, observed a man acting suspiciously, trying to secrete a revolver in the waistband of his trousers. The officer approached the man and identified himself as a police officer. The suspect drew a fully loaded .32 calibre revolver and aimed it at the officer. Patrolman Connolly after a struggle was able to disarm the man and placed him under arrest. After an investigation, it was revealed the prisoner had just burglarized a tavern in the vicinity.

DEPARTMENT MEDAL OF HONOR TO

PATROLMAN JOHN A. SACCO DISTRICT NINE

Responding to an emergency radio call to the intersection of Southampton Street and Massachusetts Avenue, Patrolman Sacco on the night of September 7, 1963, observed a man perched on top of the metal framework of a gas storage tank more than 200 feet above the street, threatening to jump to his death. The officer climbed the framework to where the man was balanced and while Rev. Kenneth Murphy of Rescue, Inc., and personnel of the Boston Fire Department kept the man's attention, Officer Sacco came from the rear of the framework and grasped the man securely until Fire Department personnel could carry him to safety.

DEPARTMENT MEDAL OF HONOR TO

PATROLMAN JOHN C. COLLINS DISTRICT TEN

On the afternoon of April 6, 1963, Patrolman John C. Collins observed a small boy, fully clothed, fall off a pier into the frigid waters of the South Boston Lagoon. Patrolman Collins, with complete disregard for his own safety, plunged into the water and rescued the boy. In the course of the rescue Patrolman Collins sustained a severe laceration of his right leg which necessitated hospital treatment.

DEPARTMENT MEDAL OF HONOR TO

PATROLMAN VINCENT B. GIANNUSA, JR. TRAFFIC DIVISION

On the afternoon of August 26, 1963, Patrolman Vincent B. Giannusa, Jr., while directing traffic at the busy intersection of Summer and Washington Streets, was notified of an armed robbery which had just been committed in a finance company office on Winter Street. Patrolman Giannusa, being familiar with the pattern of recent holdups in the area, went immediately to Winter Street Subway Station, where he observed a man answering to the description given and, with drawn service revolver, approached the suspect, disarmed him of a pistol, and placed him under arrest. Investigation revealed that his prisoner was the much wanted "lunch hour bandit" who had perpetrated nine recent armed robberies in the Boston area.

In Memoriam

PATROLMAN JAMES B. O'LEARY

1917 - 1963

Appointed March 5, 1947

On August 2, 1963, Patrolman James B. O'Leary, assigned to District 16, died as a result of gunshot wounds sustained while in pursuit of a dangerous felon who had committed a robbery.

On November 6, 1963, Detective George J. Holmes, of the Criminal Investigation Division (detailed to District 6) died as a result of gunshot wounds sustained while attempting to effect the arrest of two dangerous, heavily armed criminals, who had just committed a robbery.

DETECTIVE GEORGE J. HOLMES

1922 - 1963

Appointed July 27, 1949

In the highest traditions of the police service both Patrolman James B. O'Leary and Detective George J. Holmes gave up their lives in the service of their community.

THE HUNDRED CLUB OF MASSACHUSETTS

During the year 1959 a group of philanthropic businessmen formed an organization known as "The Hundred Club of Massachusetts."

The prime function of this organization is to provide financial assistance to the widows and dependents of policemen and firefighters who have lost their lives in the line of duty.

The Boston Police Department expresses its gratitude and appreciation to "The Hundred Club" for the invaluable assistance rendered to the families of police officers who have given their lives in the service of this community.
